PROPOSAL NO. 11047.10 v1.0
REQUEST DATE December 9, 2025
CUSTOMER ID
EXPIRATION DATE 60 Days
QUOTE TYPE Fixed
START DATE TBD
DURATION (NO. OF WEEKS) 3-5 weeks

PROPOSAL BY	SPECIAL INSTRUCTIONS	PAYMENT TERMS
Weston Schaper	2 cans, 2 tests, identical coupon placement per test (3 levels with 3 coupons per level)	50% deposit, remainder after delivery of final report

PROPOSAL TITLE:

Foaming Cleanser Spray Coverage Testing

STATEMENT OF WORK: ARE Labs will perform a non-GLP evaluation of two foaming-cleanser aerosol prototypes intended for single-use deployment inside residential 96-gallon trash bins. The study will characterize vertical spray reach and surface deposition uniformity within the bin using mass-gain coupon measurements. Testing will include procurement of a 96-gallon container, installation of sampling coupons at multiple heights, execution of two full-discharge trials (one per submitted can), and quantitative measurement of foam deposition on each coupon using an analytical balance. Results will be compiled into a brief technical report including methodology, milligrams-per-square-inch deposition data, height-dependent trends, and photographs.

TASK	DESCRIPTION	QTY/HR	UNIT PRICE	LINE TOTAL
1.0	PROJECT MANAGEMENT & SET-UP			
	Procurement of one 96-gallon trash bin. Construction and placement of standardized deposition coupons at ~1 ft, 2 ft, and near-lid positions. Pre-weighing of all coupons on microbalance.	4 Hrs	\$ 240.00	\$ 960.00
2.0	TESTING			
	Execution of Spray Trials - Two (2) full discharge tests, one per supplied can, oriented upright as deployed in final design. Controlled closed-lid environment during foam rise and dissipation.	2 Hrs	\$ 240.00	\$ 480.00
3.0	COLLECTION & DATA ANALYSIS			
	Collection and re-weighing of coupons to calculate mass gain per unit area. Documentation of qualitative observations (foam height, coverage patterns, anomalies).	4 Hrs	\$ 240.00	\$ 960.00
4.0	REPORTING			
	Report Generation - Report with all methods, data analysis, results, summary.	4 Hrs	\$ 240.00	\$ 960.00
LABOR SUBTOTAL				\$ 3,360.00
OTHER DIRECT COSTS				\$ 140.00
STUDY TOTAL				\$ 3,500.00

Thank You for considering ARE LABS to meet your Testing Needs!

TEST MATRIX

Test Matrix

Trial	Device / Can ID	Container	Orientation	Coupon Heights	# of Coupons	Measurements
1	Can #1	96-gallon bin	Upright	1 ft, 2 ft, near lid	3 per level (9 total)	Pre/post weight (mg/in ²)
2	Can #2	96-gallon bin	Upright	1 ft, 2 ft, near lid	3 per level (9 total)	Pre/post weight (mg/in ²)

PROJECT TERMS

Reporting

A signed study report will be provided to the Sponsor. This report will include, but not be limited to, the following specific information:

Information on the substance tested and vehicle(s) used.

Test conditions and System Diagrams (description of equipment and methodology used).

Results (description and/or tables of all pertinent measurements made during test substance administration).

Exposure data (description and/or tables of all pertinent measurements made during the test exposure).

Plating and Enumeration of all samples will be tabulated and graphed.

Treatment, evaluation, and interpretation of the results and the conclusions drawn by the Study Director.

A compliance statement signed by the Study Director that states that the report accurately reflects the raw data obtained during the performance of the study and that all applicable GLP regulations were followed in the conduct of the study.

A Draft Report will be written for this study and issued for review. Upon receipt of comments, a final report will be issued.

Records

Data and records to be maintained by ARE Labs include, but are not limited to, the study protocol, amendments and deviations, test article receipt and handling, animal receipt and in-life records, feed analysis records, water analysis records, animal room temperature and humidity records, laboratory notebooks, study correspondence, and final study report. All data, records, documents, notes, or other materials generated by the study will be collected and maintained by the Study Director.

Quality Assurance

This study will require compliance with the FDA Good Laboratory Practice Regulations (21 CFR 58). All operations pertaining to this study, unless specifically defined in this protocol, will be performed according to the Standard Operating Procedures of ARE Labs, and any deviations will be documented.

Protocol Amendments and Deviations

All amendments to and/or deviations from this protocol and the reasons therefore shall be documented, approved by management (as may be required), signed by the Study Director, dated and maintained with the protocol. Any amendments to and/or deviations from this protocol will be recorded in the raw data and documented in the final report.

Compliance Statement

All in-life aspects of this protocol will be conducted in accordance with 21 CFR Part 58, Good Laboratory Practice (GLP) Regulations. Assays and analyses performed at ARE Labs will comply with established practices and procedures. Non-validated assays will be identified in the Final Report.

Payment Terms

Payment of 50% of project upon receipt of signed protocols before projects begins. Remainder will be billed after final report has been submitted and accepted.

Additional Testing

Additional testing, extension of trial times and other out of scope additional testing will be billed at ARE Labs standard rate of \$240/hr. The project lead will inform client of approximate costs and wait for client approval before proceeding. Additional hours will be reported and added onto the final remaining invoices.

Hold Harmless

Client shall release and shall save, defend, indemnify and hold Aerosol Research and Engineering Laboratories Inc., its employees, officers, directors, agents, affiliates, subsidiaries, and parent harmless from and against any and all liabilities, losses or damages, claims, demands, causes of action, suits and associated expenses including, but not limited to all court costs, expert witness fees, investigative expenses and attorneys' fees (the "Litigation Expenses") and awards arising in favor of Client or any third party as a result of, and/or in any way occurring, incident to arising out of, or in connection with the performance of services by Aerosol Research and Engineering Laboratories pursuant to this Agreement and/or the transportation, handling, or disposal of Client's Hazardous Materials: (i) injury, disease, or death of persons, (ii) loss of, damage to, loss of, or loss of use of property and or (iii) financial loss of every kind of character. This indemnity does not apply to any of the foregoing losses, costs, damages, or injuries caused solely by the gross negligence or willful misconduct of Aerosol Research and Engineering Laboratories Inc. or its employees.

In no event shall Aerosol Research and Engineering Laboratories Inc. be liable to Client for indirect, punitive, special, incidental, or consequential damages (including, without limitation, loss of profit or business interruption). Litigation Expenses or other fees (including, without limitation, attorneys' fees, court costs, and/or pre or post-judgment interest), or any other expenses or costs incurred by Client or any other party in any litigation against or involving Aerosol Research and Engineering Laboratories Inc. or any Indemnified Person in connection with this Agreement or any service provided under this Agreement even if Client is the prevailing party.
