Hey Weston,

Happy New Year, I hope you enjoyed your Holiday.

For sure, name the time and send the invite and I will be there, tomorrow works just as much as the next day.

Very respectfully,

Jacob Bevier

Jacob,

I hope all is well. I wanted to see if you had any time tomorrow or Wednesday for a meeting. We performed some testing (1 can so far) and wanted to discuss before we continued with the second can/trial.

Let me know!

Good morning Weston,

Thank you for the heads-up—and for keeping things moving, especially with the holiday staffing constraints. I appreciate you receiving the cans and briefing your lead scientist to formalize the test plan.

As you progress, any observations you can share (even early learnings) will be extremely helpful for us—spray pattern/coverage, foam quality, dwell time, adhesion to vertical surfaces, and any notes on nozzle/actuator performance. That feedback will directly inform how we refine the formula and hardware direction going forward.

No rush on timelines given the holidays—I'm looking forward to your updates as things become clearer. And yes, I'll definitely reach out if questions come up in the meantime.

Best regards,

Jacob Bevier

Jacob,

Just letting you know that the cans came in yesterday. I will keep you posted over the holidays on progress. We will be short staffed between Christmas and New Years, so I can't give you a timeframe on testing completion yet. But I will update you as soon as things get clearer.

In the meantime, feel free to ask any questions or check in. I'm briefing the lead scientist on this testing later today and we are formalizing the test plan

Best,

Weston

Just make sure Sarah is included in the email if it deals with payments or anything.

Thanks Weston!

Hey Weston,

Just spoke to my team and they should be handling the payment today/tomorrow. If you wanna just give me the exact address, if different then the websites and I will get these in the mail today/tomorrow.

Thank you for your patience, I am excited to see where this goes and to work with you guys!

Hey good morning Weston,

I do! However, trying to get my partners together to talk about it has been the challenge. We meet this week and then I will be sure to let you know. Thanks for

following up and we will talk soon.

Jacob,

Just following up to see if you wanted to proceed with the spray can testing with the large trash bin. Let me know if you have any questions or concerns.

Best,
