Hello Jacob,

I just learned that HVAC repair technicians are on the way to my house. Could we push back to 10AM so I can get them started before we talk?

I'm sorry for the inconvenience.

Richard

Dear Dr. Dalby,

I'm Jacob Bevier of Brag & Bev LLC. We've built a deodorizer-style aerosol prototype with strong spray performance. Our next step is to evolve it into a *true cleanser* — with cleaning efficacy, optimized actuator/nozzle/can, and VOC compliance.

Would you be open to a short call to see if this aligns with your expertise in inhaler/spray device and formulation testing? I can send over our data ahead of time.

Thanks,

Jacob
