Hey JB,

Yes that would be great! I will email Weston from ARE Labs and give him the heads up.

Then I'll put the cans in the mail today.

Thanks so much!

Very respectfully,

Jacob B

Jacob,

We defer to you on this. Do you want me to process payment as directed in the proposal?

Hey JB and Sarah,

I just realized I sent this from a different email address then I intended and I wanted to make sure you guys saw this quote.

I think have a certified lab testing and results will be better. They can give proper feedback to the chemist and the results will hold more weight than my makeshift garage lab.

Let me know what you guys think.

Very respectfully,

Jacob B
